Technical Skills

Strong – Javascript(ES6) | HTML5 | JQuery | CSS3 | Node/ExpressJS | ReactJS | AngularJS | MySQL | Git
Experienced – React Native | Redux | Sass | MongoDB | Redis | Grunt | Docker | Webpack | TDD

Projects

Squirrel | Full Stack Engineer | stashyournuts.xyz
Web and Desktop application to cache reading materials
- Designed a user focused interface with React/Redux, Materialize and CSS3 for quick reconciliation
- Cached high-demand data with Redis to enhanced performance and reduced database load
- Architected a relational database with MySQL and Sequelize for efficient data storage and querying
- Implemented a modular microservice architecture with Docker for enhanced scalability

Flash! – Front-end Engineer
Location based event planning mobile app
- Utilized React Native components and leveraging my design experience to create great UX/UI
- Integrated geolocation and Google geo-coding to create event location pin on a map view
- Implemented user login and signup, queried server for password authentication or existing session

Tickr Taker | Front-end Engineer
Competing marketplace for time sensitive assets
- Created an interaction channel between buyer and seller with an inbox and FAQ feature using React and React Router, utilizing PostgreSQL for highly relational data and queried with Sequelize ORM
- Styled the application with CSS3 and Bootstrap for responsive and delightful UI across devices

PawME – Full Stack Engineer
Yellowpages for adoptable animals
- Integrated with MEAN stack, for efficient DOM rendering scalable non-relational data storage
- Utilized AngularJS's two-way data binding nature to filter selection and Bootstrap for a responsive site

Professional Experience

Sonic Automotive – Internet Sales Manager   2012 - 2016
- Managed and responded to online vehicle inquires traffic, communicated clear information regarding product details, inventory availability, and purchase and lease options
- Delivered a personalized customer experience by understanding specific client needs and providing education to determine the best product choice for the customer

Education

Hack Reactor, Advanced Software Engineering Immersive Program   2016
Academy of Art University, BFA Fashion Design   2008

Personal

Ukulele musician. National Parks explorer. Toy poodles owner. Seamstress. Music Festival goer.
Pancakes enthusiast. Fluent in Cantonese, Mandarin and poodle. Lived in Sydney and Hong Kong.
